Cambridge, MA 02139

Tel 617.2707195

## Research Interests

My background is in the areas of mathematical systems theory, control design and reduced order models. In addition to ongoing work in linear robust and optimal control, research activities over the past several years included work on modeling, estimation and design in distributed nonlinear systems, driven by applications to fluid flow systems and medical imaging. In the flow control area I work on very low order, design-accessible models and means to exploit these models both to gain insight into the physics of the system and in effective nonlinear feedback design. In the area of robust control I utilize game- and operator-theoretic methods for robust estimation and control of delay and preview systems and for sampled data systems. Recent activities in medical imaging include dynamic 3D electrocardiography and the use of dynamic models for multi-modal brain imaging. Previous work in optimal and robust control include the introduction of differential games methods in  $H_\infty$  control of time varying and distributed parameters systems, and applications to basic systems theory. Previous focal applications include power engineering and electric motor drives. Other past areas of research include discrete event control systems and functional differential equations. My research has been supported by industry, including UTRC, the Charles Stark Draper Laboratory and Sat-Con Technology Co., and by government agencies, including the National Science Foundation (NSF), the Army Research Office (ARO), the US-Israel BSF, and the Air Force Office of Scientific Research.

## Education

1974-1977 B.Sc., Mathematics and Philosophy, Tel Aviv University, Tel Aviv, Israel.  
1977-1979 M.Sc., Mathematics, The Weizmann Institute of Science, Rehovot, Israel.  
1979-1984 Ph.D., Mathematics, The Weizmann Institute of Science, Rehovot, Israel.

## Positions Held

2012-2013 Visiting Professor, Mechanical Engineering, Technion, and  
School of Computer Science and Engineering, Hebrew University  
2006-present Professor, Department of Mathematics, Northeastern University  
Fall 2005 Lady Davis Visiting Professor, Faculty of Mechanical Eng., The Technion, Israel  
2003-2010 Director, Communications and Digital Signal Processing (CDSP) Center  
for Research and Graduate Studies, Northeastern University.  
Summer 2001 Visiting Faculty Fellow, Air Force Research Laboratory, Wright-Patterson AFB  
1989-present Department of Electrical & Computer Engineering, Northeastern University.  
(Assistant Professor, 1989; Associate Professor, 1994; Professor, 2003)  
1998-1999 Visiting Research Scientist, SatCon Technology Corporation, Cambridge, MA.

1988-1989 Assistant Professor, Center for Engineering Mathematics, Program in Mathematics, The University of Texas - Dallas.  
 1987-1988 Assistant Professor (Research), Division of Applied Mathematics & Center for Control Systems, Brown University.  
 1985-1987 Post Doctoral Fellow, Laboratory for Information and Decision systems, M.I.T.  
 1984-1985 Post Doctoral Fellow and Lecturer, Department of Electronic Systems, School of Engineering, Tel Aviv University.

## Consulting

<i>United Technologies Research Center:</i>	Aeroengine control, parameter estimation, fluid flow control, nonlinear filtering
<i>SatCon Technology Co.:</i>	Electric motor control
<i>Lighthouse Software:</i>	CAD
<i>Corning Applied Technologies:</i>	Dynamic estimation, fiber-optic polarization control
<i>Mitsubishi Electric Research Laboratory:</i>	Modeling and control of distributed parameter systems

## Invited Visits & Seminars (alphabetic host list):

Åbo University (Åbo, Finland), Ben Gurion University of the Negev (Beer-Sheva, Israel), Berlin Institute of Technology (TUB, Berlin, Germany), Brown-Bovery Co. Research Center (now ABB, Switzerland), CalTech, Cambridge University (UK), Florida State University, George Washington University, Harvard University, IEEE Boston Chapter, Illinois Institute of Technology, Inst. of Math & its Applications (IMA Minnesota), University of Minnesota, Ohio State University, Osaka University (Japan), Princeton University, RAFAEL (Israel), Rensselaer Polytechnic Institute (RPI), Royal Institute of Technology (KTH, Stockholm, Sweden), Rutgers University, Technion (Haifa, Israel), Tel Aviv University, University of Illinois at Urbana-Champaign, University of Maryland (College Park), University of Minnesota, University of Texas, Dallas, University of Toronto, United Technologies Research Center (East Hartford, CT), US Air Force Academy, Weizmann Inst. of Science (Rehovot, Israel).

**Research Grants** include support by the US National Science Foundation, the Army Research Office, the Air Force Office of Scientific Research, the US Department of Homeland Security, the US-Israel Bi-National Science Foundations, and by industrial grants from Draper Laboratory and SatCon Technology Co..

## Patent.

- G. Tadmor and A. M. Stanković, US5998957: “*Dissipativity- based controller for synchronous electric drives, and associated methods*”,

## Masters Theses Supervised at Northeastern University

1. Edgar M. Vaughan, M.Sc, 1991 (Co-advised with C. A. Jacobson)
2. Louis J. Poehiman, M.Sc, 1992 (Co-advised with C. A. Jacobson)
3. Pablo O. Arambel, M.Sc. 1993
4. Wei-wen Wang, M.Sc. 1994
5. Geunsung Song, M.Sc. 1995 (Co-advised with A. Stanković)
6. Zoran Ćorić, M.Sc. 1996 (Co-advised with A. Stanković)
7. A. Barnett, M.Sc. 1977 (Co-advised with A. Stanković)
8. Ömur Baş, M.Sc. 1997 (Co-advised with A. Stanković)
9. Roberto Pileggi, M.Sc. 1997
10. Vladan Petrović, M.Sc. 1998 (Co-advised with A. Stanković)
11. K. Eisenhauer, M.Sc., 2001
12. G. Eirea, M.Sc., 2001 (Co-advised with A. Stanković)
13. Ruoying Ma, M.Sc., 2003
14. Sai Chen, M.Sc., 2004
15. Abhimanyu Das, M.Sc., 2006
16. Gerard Pons-Moll, Diplom, 2008 (Tech. U. Catalonia degree, Co-advised with D. Brooks)
17. Guillem Crosas, Diplom, 2009 (Tech. U. Catalonia degree, Co-advised with D. Brooks)
18. Anshuman Mishra, M.Sc., 2009
19. Yiman Hou, M.Sc., 2010
20. Arun Kushik Parthasaraty, M.Sc., 2010

21. Marc Queralt Madrigal, Diplom, 2010 (Tech. U. Catalonia degree, Co-advised with D. Brooks)
22. Daniel Bissex, M.Sc., 2010
23. Jaume Coll Font, Diplom, (Tech. U. Catalonia degree, Co-advised with D. Brooks), 2011
24. Emily Anesta, M.Sc., 2011
25. Ajendra Sharma, M.Sc., pending
26. Golnaz Shapurian, M.Sc., pending

### **Doctoral Theses Supervised at Northeastern University**

1. Pablo O. Arambel, Ph.D. 1995
2. Vladislav Davidkovich, Ph.D. 1998 (Co-advised with A. Stanković)
3. Timoor Sakharuk, Ph.D. 1998 (Co-advised with A. Stanković)
4. İsmail Ağirman, Ph.D. 1999 (Co-advised with A. Stanković)
5. Lu Jiang, Ph.D., 2002 (Co-advised with A. Stanković)
6. Alireza Ghodrati, Ph.D. 2005 (Co-advised with D. Brooks)
7. Srinivas Laxminarayan, Ph.D., 2011 (Co-advised with D. Brooks),
8. Kham Nguyen, Ph.D., 2011 (co-advised with J. Makhoul, BBNT)
9. Oliver Lehmann, Ph.D., pending
10. Asieh Ahani, Ph.D., pending (co-advised with D. Brooks)

### **Other Graduate Research Projects Supervised at Northeastern University**

1. Nilufer Koldan, (2006/7, Ph.D. Candidate, Mathematics Dept.), *Investigation of a Parabolized Flow Model*
2. John Gonzalez, (2006, M.Sc. Candidate, mathematics), *Investigation of Generalized Mean Field Flow Models*

### **Undergraduate Research and Thesis**

1. Laurent Jabre, visiting student, Concordia University, 1998

2. Scott Kelley, Mechanical Eng. Northeastern University, 2008.

3. Greg Malkov, Electrical Eng. Northeastern University, 2009.

### **Advising Graduate Research Outside Northeastern University**

1. Johannes Gerhard, Diplom (MS), TU Berlin, 2003

2. Mark Pastoor, Ph.D., TU Berlin, 2008

3. Oliver Lehmann, Diplom (MS), TU Berlin, 2010

### **Service on Doctoral Theses Committees Outside NEU**

1. Feng Lin, University of Toronto, 1988

2. Matts Sägfors, Åbo University, Åbo, Finland, 1998

3. Sanath Alahakoon, Royal Inst. of Technology (KTH), Stockholm, Sweden, 2000

4. Mark Pastoor, Berlin Inst. of Technology (TU Berlin), Berlin, Germany, 2008

5. Stefan Almér, Royal Inst. of Technology (KTH), Stockholm, Sweden, 2008

6. Shmuel Safonov, Tel Aviv University, Tel Aviv, Israel, 2008

### **Publications**

#### **Book**

1. B. R. Noack, M. Morzyński and G. Tadmor (Editors), **Reduced-Order Modeling for Flow Control**, CISM Courses and Lectures V. 528, Springer Verlag, 2011 ( 3,329 chapter downloads by June 2015).

### Conference Presentations and Proceeding Papers

1. Z. Artstein and G. Tadmor, *The underlying measures of linear systems with indirect controls*, Proc. of the 20th IEEE Conf. Decision and Control, pp. 1018–1021, 1981
2. O. Maimon and G. Tadmor, *Efficient supervisors in discrete event systems*, Proc. of the 1986 IEEE conference on Systems, Man and Cybernetics (invited)
3. G. Tadmor and O. Maimon, *From systems constraints to finite state machine models in discrete event systems*, Proc. of the 1987 American Control Conference, pp. 1721-1724
4. G. Tadmor,  *$H_\infty$  interpolation and systems with input delays*, 1987 MTNS (invited); talk & abstract; an accompanying paper appeared as a book chapter.
5. G. Tadmor, *Trajectory stabilizing controls in hereditary linear systems*, Proc. of the 26th IEEE Conf. Decision and Control, pp. 2180–2181, 1987
6. G. Tadmor,  *$H_\infty$  in the time domain: the four block problem*, Inst. for Mathematics and its Applications - Summer 1988 Workshop on Signal Processing (invited talk).
7. G. Tadmor, Same title, 1988 Texas Systems Day (invited talk).
8. G. Tadmor, Same title, SIAM conference on Control in The 90's (talk & abstract), 1989
9. G. Tadmor,  *$H_\infty$  in the time domain: the standard problem*, 1989 American Control Conference, pp. 772 – 773
10. G. Tadmor, *Time domain optimal control and worst case linear systems design*, Proc. of the 28th IEEE Conf. Decision and Control (invited), pp. 403–406, 1989

11. G. Tadmor , *Optimal  $H_\infty$  sampled-data control in continuous-time systems*, 1991 MTNS (invited); pp. 429–430; an accompanying paper appeared as a book chapter
12. G. Tadmor , *Optimal  $H_\infty$  sampled-data control in continuous-time systems*, 1991 American Control Conference (Best Presentation Award in the  $H_\infty$  Control session), pp. 1658–1663
13. G. Tadmor, *Robust control of time varying systems with temporally local parameter information*, 1991 MTNS (invited); pp. 431–432; an accompanying paper appeared as a book chapter
14. G. Tadmor and M. Verma, *A time varying Nehari Theorem: A system theoretic approach*, Proc. 1991 Allerton Conference. pp. 88-97
15. G. Tadmor and M. Verma, *Riccati equation based stable - anti-stable state space partitions, factorizations and model matching in LTV systems*, Proc. 1992 American Control Conference, pp. 722-726
16. B. Bienz-Tadmor, P.A. DiCerbo, G. Tadmor, and L. Lasagna, *Clinical success rates for Biopharmaceuticals and conventional drugs*, 1992 Meeting of the American Society for Clinical Pharmacology and Therapeutics; abstract in J. Clinical Pharmacology and Therapeutics 51 (1992), p. 191.
17. G. Tadmor, *Some variational methods for robust control of linear time-varying systems*, 2nd ARO Workshop on the Design of Real Time Controllers, ARDEC, Picatinny Arsenal, NJ, June 1992 (invited talk)
18. G. Tadmor, *The LTV one, two and four block model matching problems, factorization theory and related state-space analysis: A variational approach*, 1992 SIAM Conf. on Control & Applications, Minneapolis - Mini-Symposium on Interpolation and Robust Control in Time Varying Systems (Mini-Symposium organizer); talk & abstract.
19. G. Tadmor, *Disturbance vs. disturbance rejection: The devil's perspective and LTV  $J$ -lossless systems*, Proc. 1992 IEEE Conf. Decision and Control, pp. 1441 -1446
20. W.A. Haddad and G. Tadmor, *Reduced order optimal LQG control in time varying systems*, Proc. 1992 IEEE Conf. Decision and Control, pp. 1085 -1090
21. C.A. Jacobson and G. Tadmor, *A note on system identification with probabilistic a priori information*, Proc. 1993 American Control Conference, pp. 1539 – 1543
